

Who We Are

The Network brings together more than 75 member organizations to create and improve opportunities for people in the 24:1 community—an area of North St. Louis County that **mostly shares the boundaries of the Normandy Schools Collaborative**. From sparking collaborations between organizations to engaging with local leaders to hosting free trainings for service providers, the Network makes it easier for organizations to make a positive impact in the 24:1.

Our Mission & Vision

We build equity by serving those who create opportunities for people in the 24:1 community to learn, live, and leave a legacy.

The Network envisions building equity for individuals in the 24:1.

Our Impact Areas

Healthy Babies, Early Childhood, Kindergarten Readiness

From pre-natal care to parental support to developmental screenings at a young age, Network members are setting children up for success. Member organizations work to build a community with empowered parents, thriving childcare centers and access to resources such as diapers.

Youth Supports and Basic Needs

Member organizations help fill gaps between the school district, students, and families to ensure that students are supported in every facet of life. Network members work to ensure students come to school ready to learn, with minimal distractions outside the classroom.

Job Readiness

From kindergarten to post-secondary education, children and adults in the 24:1 deserve opportunities to access quality education that prepares them for post-secondary options and jobs. Network members work to eliminate barriers that stand in the way of 24:1 residents building successful lives.

Community Investment

Safe and stable housing is foundational to quality of life. Many Network members support residents as they seek stable housing and single-family home ownership. Through these housing supports, residents can reach their potential with the strong foundation of a safe, affordable, quality home.
